The consultant, [ ] commented that this particular group was more active and responsive than the previous two seminars. This may be attributed to two factors:

a) The large display of hardware, which was not available for the first two runnings; and,

25X1A5a1

b) Our emphasis on the first morning of the Course that [ ] was TOP SECRET cleared and quite knowledgeable of the systems (walnut, etc.) in operation within the Agency.

C. GENERAL
